

WILL PAY NO TOLLS

President Harrison Issues a Proclamation Revoking

CANADIAN TOLLS AT THE "500"

Tenants Bound for Dominion Ports Will no Longer Be Required to Pay 20 Cents a Ton.

WASHINGTON, Feb. 22.—As the result of correspondence between Secretary of State Foster and Sir Julian Pauncefote, a new "order in council" has been issued by the Canadian government relating to the tolls of the dominion canals for the season of 1923. The effect of this new order is to abolish the rebate on tolls and the regulation against transhipped goods, thereby removing all discriminations of which the government of the United States has long complained. In accordance with this diplomatic arrangement the president has issued a proclamation revoking the tolls levied on Canadian vessels and cargoes in the Saint Ste. Marie canal.

After reciting the law on this subject, and stating that satisfactory assurances have been obtained that there shall be no discrimination against American citizens in the use of said canals, the proclamation concludes: "Now, therefore I, Benjamin Harrison, president of the United States of America, by virtue of the said act of congress approved July 20, 1902, do hereby declare and proclaim that from and after the date hereof, and until further notice the provision of my said proclamation of August 18, 1902, are suspended in so far as they direct that a toll of 20 cents per ton be levied, collected and paid on all freight, of whatever kind or description, passing through the St. Marie's Falls canal in transit to any port of the Dominion of Canada, whether carried in vessels of the United States or other nations."

Won't Take Our Money.

OTTAWA, Feb. 22.—The city treasurer has given orders that no United States money shall hereafter be taken at the offices of collectors at the city hall. Merchants are also unwilling to take American money.

ANNEXATION OF HAWAII

Congressman Springer Wants to Know the Liabilities to Be Incurred.

WASHINGTON, Feb. 22.—Congressman Springer introduced in the house today a resolution touching the Hawaiian annexation treaty recently sent the senate by the president. The resolution recites that it is proposed by the treaty to pay the public debt of Hawaii and the amounts due deposits in the Hawaiian postal savings banks, which may aggregate \$12,500,000, the sum of \$20,000 per annum to the late queen of Hawaii, and \$150,000 in full to Princess Kaiulani, and within one year to extend the sugar bounty provisions of the Hawaiian States tariff laws to the islands. "The president is asked to furnish the house any information he may have on these matters, showing the liabilities to be incurred by the United States by reason of the proposed annexation."

LO, THE POOR INDIAN.

The House Discusses Him for Three Hours Yesterday.

WASHINGTON, Feb. 22.—The first of what it is said will be a daily series of conflicts between the appropriation bills and the anti-option bill, until the latter is acted upon, was the feature of today's session of the house. The members were worn out by last night's session, and the day passed tamely. Mr. Hatch had given out the delay the anti-option bill is being subjected, and when it was moved to take up the postoffice appropriation bill he antagonized the motion with the measure of which he is the champion. Being defeated he made the same fight and unsuccessfully when the postoffice bill was passed, and the Indian appropriation bill was called up. Members were thus put on record, and then the Indian question was discussed languidly for three hours.

There were not more than two dozen members in attendance when the house met this forenoon. On motion of Mr. Jones (democrat) of Virginia, the senate bill was passed appropriating \$11,000, out of appropriations heretofore made, for the consideration of a wharf by which access can be had to the monument designating the birthplace of George Washington. After the disposal of some routine business Mr. Henderson (democrat) of North Carolina was recognized to move that the house go into committee of the whole for the consideration of the postoffice appropriation bill. Instantly Mr. Hatch (democrat) of Missouri motioned his feet antagonizing Mr. Henderson's motion with the anti-option bill.

Mr. Hatch raised the question of consideration against the appropriation bill—declaring that the anti-option bill should be taken up, but Mr. Henderson's motion was successful. The house went into committee of the whole on the Indian appropriation bill. The house broke into a roar of laughter, and "Down" (White) formerly a member of congress who had come from New York to watch the fight over the anti-option bill, was on the floor and shook with glee when the speaker called Mr. Hatch to the chair as presiding officer.

The general debate was limited to three hours and Mr. Paul, chairman of the committee, spoke in favor of the bill. The larger part of Mr. Paul's speech was devoted to an argument in advocacy of the abolition of territory added to the Indian domain, and in favor of the passage of the bill to satisfy the agreement for the opening of the Cherokee strip, which bill he has not been able to get a vote on and under the rules, put under the suspension rule. The members of the house went into and fought from last night's session. Many of them left the building after the general debate began and those who remained, with a few exceptions, took only a very languid interest in the proceedings. Mr. Henderson

(republican) of California opposed the appropriation for salaries and expenses of Indian inspectors. It was simply a jangling appropriation.

Mr. Rockwell (democrat) of New York, vigorously denounced the item in the bill appropriating \$558,522 for arrears of interest at 5 per cent. on trust funds of the Chickasaw nation, "erroneously dropped from the books of the treasury between 1860 and 1862. He also opposed their "old soldiers," as he called them, for payment of similar claims of the Choctaws, Creeks, and other tribes, as well as the present system of Indian education. The appropriations for this purpose had grown from \$25,000 twelve years ago to \$2,312,865 for the current year.

Mr. Peel of Arkansas, replying to Mr. Rockwell, said that his colleague's statement with reference to claims were founded on ignorance.

All the claims were based on solemn obligations of the government. No man believed that the government should not pay its honest debts, and whoever opposed repudiation could not, after a full investigation, oppose these claims. Mr. Hooker (democrat) of Mississippi, and Mr. Manning (democrat) of Missouri also spoke on the Indian problem in general. The house, at 5:45, adjourned.

CONGRATULATED THE POPE.

President Carnot Sends Leo Two Sevres Vases and Best Wishes.

ROME, Feb. 22.—As the Pope is still mourning from a cold the reception of the pilgrims from Hungary, Uruguay and the Argentine republic, which was to have taken place today, was postponed indefinitely. His holiness received, however, Comte De Baine, French ambassador, at the Vatican, and presented a letter of congratulation and two Sevres vases from President Carnot. The letter was countersigned by M. DeVelle, French minister of foreign affairs, and expressed the president's best wishes for the health and the long life of the Pope. In replying to Comte DeBaine's oral congratulations, the Pope spoke of his sincere desire for the prosperity of France and the continuance of the present cordial relations between the republic and the Vatican.

Several officials at the Vatican have been arrested for having sold tickets of admission to St. Peter's on the occasion of the celebration of mass by the Pope. Tickets were sold in direct defiance of orders that admissions would be free.

BUILDING A BIG ROAD

The Presque Isle and Ishpeming Railway Company

HAS BEEN DULY INCORPORATED

James M. Barnett, Anton G. Hodeppl and J. H. M. Burgwin Are the Directors.

ISHPENDING, Mich., Feb. 22.—New York, Grand Rapids and local capitalists have incorporated the Presque Isle and Ishpeming railway company. The line already surveyed starts from Presque Isle, two miles north of Marquette, passing through Negaunee on the Southern Shore track to the lake, and crossing Lake Hancock in North Ishpeming, to reach the terminus in the western portion of the city.

The directors are James M. Barnett, John C. Holt, Anton G. Hodeppl, John H. K. Burgwin and George Hayden. Large tracts of land have been secured in North Marquette at Presque Isle, and extensive iron ore and merchandise docks will be built off the bay south of Presque Isle and well sheltered by that headland. The road is being built to compete with the Duluth, South Shore & Atlantic in the enormous ore traffic between the mines and Lake Superior. Contracts for constructing the road bed and piling for docks are drawn and will probably be let in a very short time. While the road is independent of any other, it is more than probable that it will have very close connections with the Chicago & Northwestern system, which has its present northern terminus at Ishpeming, and the management feels that it has been discriminated against by the South Shore officials in favor of the Milwaukee & Northern branch of the St. Paul system, having a northern terminus at Ontonagon on Lake Superior and at Champion, sixteen miles west of Ishpeming.

NO MORE BILLS.

The House Holds an Evening Session to Get Them All In.

LANSING, Mich., Feb. 22.—The senate met at 8 o'clock this morning and was sufficiently expeditious to clear up its work in a half hour. The republican members then left for Detroit to attend the state convention and Michigan club banquet. They will not return until tomorrow evening.

The house was in session nearly two hours this morning, each member entering himself to introduce as many measures as possible.

The time honored custom of holding an evening session in order that waste baskets and legislative journals might be hurled promiscuously about the hall, was, of course, adhered to.

Senator Doran will deliver an address upon the occasion of the Baldwin memorial exercises, February 28. There was music and introduction of bills at this evening's session in honor of George Washington. The music was provided by the Lansing Glee club and a band, while all the members participated in the introduction of bills. Representative Strong introduced a bill providing for a graded income tax. Other bills were for the pensioning of judges of the supreme and circuit courts, providing for the introduction of the reading of the American Bible in the public schools of the state and for the pensioning of James Hitecheek, sentenced from Ingham county to the state prison on the charge of murder.

Many factious bills were introduced, among them being a bill compelling hens to lay eggs in winter, which the speaker referred to the committee on internal improvements.

SHE WAS SURPRISED.

So Will You Be When You Read It.

It Certainly Has Been a Source of Wonder and Comment.

But the Lady is Ready to Substantiate Everything.

CHARLESTOWN, Mass. There has been in this place much wonder and comment of late in regard to a certain lady—Mrs. Agnes S. Morton, who resides at No. 388 Main street, Charlestown, Mass. She was seen at her home and explained the whole interesting matter as follows:

"I do not know how to express myself to you and the public at large about this matter," she said, "but I feel it my bounden duty to say something."

"Everybody knows that I have been a great sufferer from dyspepsia for twenty-five years and that I tried most everything and different doctors, but all were failures. I became so weak that I was unable to walk steadily, had no appetite and what I did eat was the most simple kind of food, but my stomach was unable to retain even that."

"I could not sleep at night, had no ambition for anything, and was a total wreck. I knew I would have to do something as I could not stand it many weeks longer. Why, I could not go up stairs without sitting down, and my heart would beat and I would be all of a tremble. I got a bottle of Dr. Greene's Nervura blood and nerve remedy and had taken scarcely one half of it when I began to have an appetite and when I finished the remainder the trembling had left me, the palpitation was better and I could sleep nights. I took four bottles and then left off to see if the great benefit I had received was permanent, for everything I had taken before had proved only temporary."

MRS. AGNES S. MORTON.

"But I found that it was not so in this case. I have not taken it now for some time and its results are just as good and permanent."

"I must tell you I am like a new person. I have an excellent appetite, can eat anything and everything, and I feel buoyant and ambitious."

"I cannot express half I want to, and all this is perfectly true, as all my friends and acquaintances are knowing to all the facts."

"I never expected to be cured as my case had been of so long standing. I hoped for nothing more than relief for a while; but I am cured, perfectly cured. Yes, I do hesitate to say that through the blessing of God and Dr. Greene's Nervura blood and nerve remedy I am completely cured."

Such is the lady's remarkable story, and we doubt if such wonderful cures have ever before been made, as are effected by this truly valuable discovery, Dr. Greene's Nervura blood and nerve remedy.

It is a fact that everybody needs a spring medicine, something to tone up and strengthen the nerves, invigorate the blood and start up a healthy action of the organs; and no medicine in the world so perfectly and completely does this as Dr. Greene's Nervura blood and nerve remedy. It is the ideal spring invigorant and restorative.

All can secure its great benefits as it is for sale by druggists for \$1. It is, too, a purely vegetable and harmless medicine, the prescription, in fact, of the well-known, successful specialist in nervous and chronic diseases, Dr. Greene of No. 35 W. 11th street, New York, who can be consulted free of charge, personally or by letter.

TALK OF THE NEIGHBORHOOD

One of Grand Rapids' bright ladies is Mrs. H. A. Englestone of No. 286 Thomas street. In speaking of her recent narrow escape from death, she said: "I know the talk of the

MRS. H. A. ENGLESTONE, 286 THOMAS ST.

neighborhood, and if it were well known it would be the wonder of the city. There is really something almost marvelous about it. You see, over two years ago my health began to fail and I had several hemorrhages from my lungs. Then I began to go down very fast; my lungs began to pain me. I had a bad cough, loss of appetite, pain in my side, night sweats, chills and fever and marked emaciation. My months were usually filled up with mucus, annoying me dreadfully. I became so weak I could hardly walk and the least exertion would make me struggle for breath. During all this time I was under the care of physicians who were highly skilled in acute troubles, but I never got the slightest help. One of them told me he could do nothing for me, but I would soon die of consumption. Of course that completely discouraged me, and I was ready to give up, but my husband, hearing of Dr. Rankin's success in lung troubles, took me to see him. He didn't give me much encouragement at first, but the trial treatment gave me so much relief and seemed so sensible that I began a course of treatment. You see the result now, no pain anywhere, no cough and no short breath, nose, throat and lungs clear. My appetite is ravenous and I gained twelve pounds the first month. I can walk anywhere without fatigue. My chills and fevers and night sweats are entirely gone. In fact, I am like one raised from the grave. I would advise anyone with lung trouble, no matter how bad, to go to Dr. Rankin; for as the doctor says: "It's one's duty to strive for health while there is life in the body."
